WHOLESALE PRICE LIST
OF
GREENHOUSE AND
BEDDING PLANTS
GROWERS OF PLANTS FOR THE TRADE

TO OUR PATRONS

To Be Read Before Ordering

NON-WARRANTY

WE wish to be distinctly understood that, while we take every precaution to have all plants and bulbs true to name, we give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any of the plants or bulbs we send out, and will not in any way be responsible for the crop. Every order we receive will be executed on these conditions only, and they must be accepted by the customers when ordering goods.

WE AIM to get new customers and keep old ones, and by honorable dealing to satisfy both customers and ourselves.

CONDITIONS OF SALE

THIS LIST CANCELS ALL PREVIOUS QUOTATIONS. All offers are made subject to goods being unsold. These prices are for a strictly wholesale trade. C. O. D. orders must be accompanied by one-half of the amount of order.

The plants named are offered at the price quoted, provided not less than five plants are taken. Where less than this number is ordered we reserve the right to charge retail prices. Special prices are made for large lots.

No charges are made for boxes or packing, nor for delivery to express or freight office, on orders amounting to \$1.00 or more; on orders of less than \$1.00, 15 cts. must be added to pay for packing.

AS HERETOFORE, ALL SALES AND QUOTATIONS ARE MADE ON A STRICTLY CASH BASIS, REGARDLESS OF THE RESPONSIBILITY OF THE CUSTOMERS. We make low prices, guarantee full count, and render the best possible service in every way.

COMPLAINTS. No complaint will be entertained for any loss or damage, unless made immediately on receipt of goods. All claims for damage occurring in transit should be made to the Express Company delivering the goods. If boxes are broken or any other visible damage done, it should be notated on the receipt to be used in filing claim.

We cannot hold plants on an inquiry without a guarantee of acceptance.

Orders for growing crops accepted subject to crop failure, shortage or other causes beyond control.

We prefer to ship orders by express; they then travel at a special plant rate, which is considerably lower than regular merchandise. It is not necessary that charges should be prepaid to secure this rate. We have the Adams and Wells Fargo Express.

We take every possible means to keep every variety separate and true to name.

To all who are interested in horticulture we extend an invitation to visit our establishment at any time, and to inspect our stock, feeling confident that they will find it up to the highest standard of perfection that is possible to attain.

We are located 12 miles north of Baltimore. Get off at *Cowenton* on the Philadelphia division of the B. & O. Railroad, or at *Chase* on the P. B. & W. of the Pennsylvania system. Send us word of your coming and we will meet you at either station.

GERANIUMS

We have no hesitation in claiming that our selection of Standard Varieties stands pre-eminent among such collections in the world. It contains only distinct and useful varieties and is the result of the most careful selection from hundreds of varieties introduced by the foremost European and American hybridizers. We have listed only those sorts which years of experience in growing and selling Geraniums has taught us are the very best in their different classes, such as can be depended on to produce the most satisfactory results and which represents the highest standard of development yet obtained in their special class and color.

In keeping our list up to this high standard we are constantly adding many of the newer varieties and discarding some of the old sorts which have been favorites but are now superseded by others which are more beautiful in form, greater in substance, more exquisite in color and more satisfactory in growth.

\$2.50 per 100, \$22.50 per 1000, unless otherwise noted. For \$20.00 we will send 1000 Geraniums, 50 each of 20 varieties, our selection. Sometimes we have a surplus of different kinds which we will offer at \$20.00 per 1000.

Abbie Schaffer. (Hill.) A beautiful soft, pleasing crimson scarlet; in fact, finest and most dependable Reds we have; splendid semi-double flowers, magnificent trusses, abundantly produced; excellent, semi-dwarf habit. A variety that is good everywhere.

Alphonse Ricard. (Brt. 1894.) A Geranium of such perfect habit that it has become the standard by which all other Geraniums are judged. The handsome, perfectly formed semi-double flowers of bright vermilion scarlet are produced in profusion, and the foliage is a handsome, luxuriant, bright green, slightly zoned. It is in every respect a general favorite.

Beaute Poitevine. (Brt. 1887.) One of the most popular varieties we have. With its lively light salmon color, its semi-dwarf, robust and branching habit, beautiful, deep-zoned foliage, healthy constitution, perfectly formed flowers, and enormous trusses freely produced, it is a variety that can be depended upon.

Bertha de Presilly. (Brt. 1889.) A most beautiful shade of silver rose pink, slightly shading to an almost white center; large, semi-double flowers, profusely produced in splendid trusses, handsome, light green foliage. One of the best bedding pinks we have, standing the sun well. We are confident it will meet all requirements.

Beaute Poitevine

Dagata

Colonel Thomas. (Brt. 1907.) One of the best among the recent Bruant introductions. Distinct in color and exceptionally attractive, the color being a pleasing shade of deep, cardinal red and apparently covered with a purplish sheen, deepening toward the center of the large, well-formed flowers, which are borne in large clusters; the habit is ideal; dwarf, vigorous and branching.

Cousin Janie. Dwarf, compact grower; very free flowering; exceptionally fine as a pot plant; small, light green foliage; semi-double flowers of a beautiful clear pink, slightly spotted red, gradually shading to a white center.

Dagata. (Brt. 1905.) One of the most distinct and handsome pink Geraniums we have. The foliage attains a magnificent size; it is that exquisite rich green that is so much admired by the most discriminating trade; the color is a strikingly beautiful shade of mauve rose, with large blotches of white at the base of the petals; the trusses are gigantic and produced in profusion.

Double Dryden. An ideal fancy pot plant as well as a good bedder; in color it is an attractive combination, being coral white at the center, shading through a delicate lilac toward the outer edge of the petals, which are a beautiful, glowing soft crimson; flowers and trusses of good size.

GERANIUMS—Continued

Edmond Blanc. One of the newer Geraniums that is attracting attention wherever seen on account of its handsome coloring, being the most brilliant of the cerise shades. The color is a bright carmine shaded around the white eye and on the upper petals with bright scarlet. The flowers are perfectly formed in large trusses, which are freely produced; foliage, deep, rich green, slightly zoned.

E. H. Trego. One of the most beautiful shades of dazzling scarlet, with an exquisite, soft, velvety finish on a saffron ground. The flowers, large, semi-double and often measure 2 inches in diameter, produced in enormous trusses in great profusion. The foliage is glossy green, with dark zone, large and of good texture; an excellent semi-dwarf, robust and branching. An ideal pot variety.

Fleuve Blanc. (Brt. 1905.) Color pure white; flowers are very large and just semi-double enough to give them a fine finish; enormous trusses on long stems, held well above the foliage. It possesses all the essential points that constitute an ideal Geranium, enabling it to withstand our trying Summers, being one of the best of the magnificent Bruant or sun-proof type. Very large, handsome, rich green foliage, zoned with dark green; growth semi-dwarf, vigorous and compact.

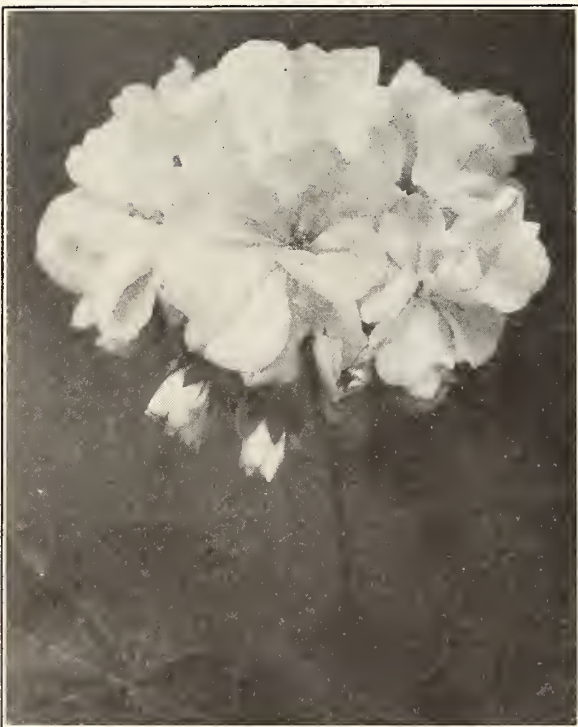

General Grant. (Brt.) A universal favorite as a bedder; bright, orange scarlet flowers, profusely produced during the entire season in medium size trusses; a vigorous grower, standing the sun exceptionally well.

Jean Oberle. (Brt. 1906.) One of the most beautiful among the colors known as peach pink; an exquisite shade of Hydrangea pink, shading tenderly to almost pure white at outer edges of each petal; the florets are exceptionally well formed; immense trusses; habit unusually strong and vigorous; very free bloomer; foliage distinct and one of the types that stands the sun well.

Jean Viaud. (Brt. 1891.) An attractive bright, clear shade of mauve rose, shading to a distinct white throat; flowers are large and trusses enormous, sometimes measuring 6 inches in diameter; habit dwarf, compact, vigorous and exceptionally free blooming.

Col. Thomas—See page 9

Edmond Blanc

La Favorite. (Lem. 1888.) One of the finest double whites in this class; pure in color; flowers of an enormous size; a continuous bloomer, the plant being covered with flowers the entire season; beautiful foliage; finest habit; unsurpassed as a bedder.

La Pilote. Brightest vermilion scarlet; an excellent grower and profuse bloomer; foliage deeply zoned. A magnificent and striking bedding variety and splendid for pot culture.

Leon Baudrier. (Brt. 1906.) Semi-double Cyclops. Immense semi-double flowers, large, full trusses, freely produced on long, rigid stems; foliage thick and of leathery texture, habit of growth, robust and branching; color a beautiful shade of carmine lake, shading soft cerise to a large white center. A most excellent fancy pot plant.

Leopold Bouille. (Brt. 1906.) Semi-double Cyclops; bright, solferino red, upper petals richly shaded bright carmine purple to a distinct white center; profuse bloomer; flowers large, of perfect form and borne in large trusses; habit is ideal. Like all the superb Cyclops, this will, within a short time, become a universal and indispensable favorite. Exceptionally good for a pot plant.

M. A. Roseleur. (Brt. 1900.) A most beautiful shade of Neyron rose. The flowers are large, semi-double, showing a distinct white center; enormous trusses, borne on long stems well above the clean, extremely handsome foliage. In habit of growth it is most pleasing semi-dwarf, short jointed and vigorous. We unhesitatingly recommend it, as there is no question but what it will give satisfaction in every case, either as a pot plant or a bedder.

Maryland. This variety was introduced by us in 1914, a result of a cross between Alphonse Ricard and La Pilote. It has a clear, healthy, dark-zoned foliage; free flowering; perfectly formed semi-double flowers; color an intense fiery scarlet; a good Winter-flowering sort.

GERANIUMS—Continued

Mauna Loa. (Lem. 1907.) A beautiful and attractive shade of russet orange, taking color as a pot plant; trusses of medium size, borne in a great profusion; splendid slightly zoned foliage; fine habit of growth.

Marquis de Castellane. (Brt.) One of the most distinct and beautiful Geraniums in the Bruant class. Beautiful soft crimson, varying to Tomato red. The flowers are very large, perfect in form and borne in large trusses, profusely produced on long, rigid stems; foliage large and of heavy texture, slightly zoned habit, semi-dwarf and vigorous; strong constitution. A variety which we can recommend, knowing that it is among the healthiest growers that we have.

Marquis de Montmort. (Brt.) Deep crimson carmine; a very novel and beautiful shade; fine, large trusses and florets, held well above the strong, robust, deep-zoned foliage. An exceptionally striking variety, greatly admired.

Miss F. Perkins. An exquisite shade of deep rose pink, with a distinct white throat; large, handsome flowers and trusses borne on long stems held well above the foliage; well known standard favorite as a bedder or a pot plant; constant bloomer, being a mass of color the entire season; strong constitution, standing our extreme climate conditions in fine shape.

Miss Kendall. Dark carmine red, shading to Geranium lake toward the center of the bold, round, full flowers of fine form; trusses large and strikingly handsome; strong, vigorous grower; dark, rich green, deep-zoned foliage. A splendid variety.

Mme. Barney. (Brt.) A splendid, deep, pure pink of a lively shade; grand habit of growth; dwarf and branching; very free in bloom; semi-double and of large size; a perfect bedder and pot plant.

Mme. Buchner. (Lem. 1908.) Snow-white flowers, abundantly produced in large trusses; strong, vigorous grower, with broad, fluted foliage; slightly zoned.

Mme. Canovas. (Lem. 1898.)

Very dark, velvety scarlet, with maroon shadings; immense florets, produced in large trusses on long stems held well above the foliage. A rival to S. A. Nutt in color, but stronger grower.

Mme. Charlotte. Flowers are large, semi-double and perfect form; trusses enormous, produced in great profusion on good, long stems throughout the entire season; habit is perfect, dwarf, robust and vigorous; foliage heavy, deep green, broad, chocolate zone. The color is a clear, distinct, rosy salmon, shading lighter toward the outer edge; unexcelled as a pot plant; a splendid bedder.

Mme. F. Scarloveze. (Brt.) An exquisite and pleasing shade of bright rose, shading to white center; the immense and semi-double flowers are very attractive; dwarf and branching in habit and growth.

Mme. Jaulin. (Brt.) Flowers are very large, produce in enormous trusses; semi-dwarf, compact, vigorous habit; broad, deep-zoned foliage; color delicate peach pink, shading to a daybreak pink in center; a perpetual and profuse bloomer.

Mme. Laporte Bisque. (Brt. 1906.) A very strong, robust, semi-dwarf and compact grower. The foliage is large, handsome and deeply zoned; flowers large; trusses immense and freely produced; color an exquisite shade of rich, light salmon, shading lighter to an almost white margin at edge of petals.

Mme. Landry. (Brt.) One of the choicest and handsomest of the Bruant race. Very free and constantly in bloom throughout the

season; florets very large and borne in enormous trusses on long stems held well above the heavy, deep-zoned foliage. Color is a brilliant shade of apricot salmon, shading to copper, with white eye; in habit it is robust, semi-dwarf and vigorous; strong, healthy constitution, enabling it to withstand the extreme heat and hold its foliage the entire Summer.

Mme. Recamier. (Lem. 1903.) Pure, white; individual flowers are double, beautifully formed and produced in enormous trusses; strong and vigorous grower; broad fluted, slightly zoned foliage; evidently the best white we have.

Monsieur Emile David. (Brt. 1906.) Strong, healthy, erect growth of luxuriant, glossy green foliage; trusses enormous dimension. Immense semi-double flowers of a violet rose color, with base of upper petals feathered white, freely produced on long, rigid stems; unsurpassed as a pot plant.

Mrs. Annie Vincent. (Brt. 1908.) Exquisite, semi-double flowers of a pure carmine color, somewhat maculated white; incomparable for freshness and brightness; short, robust grower, with exceptional resistance to inclement weather. The handsome, semi-double flowers are supported in magnificent trusses well above the attractive foliage.

Jean Viaud—See page 10

GERANIUMS—Continued

Mme. Landry—See page 11

Mrs. Lawrence. This is one of the finest Geraniums we have in this color. Clear, healthy foliage; splendid dwarf, compact habit of growth; wonderfully free in flowering; indispensable as a pot plant, being strongly recommended for Winter blooming; unsurpassed as a bedder. The color is an artistic shade of bright, satiny salmon pink, slightly tinged white.

Ornella. (Brt. 1906.) A continual bloomer; beautiful, semi-double, deep rich scarlet flowers, slightly shaded crimson; excellent habit; splendid truss and foliage. A magnificent variety, which we are confident will meet the requirements of any semi-double scarlet Geranium. Luxuriant both as a pot plant and a bedder.

President Baillet. (Brt. 1906.) This variety represents the true Bruant type. Beautiful, heavy, luxuriant, slightly-zoned foliage; strong, robust grower; enormous trusses of semi-double flowers freely produced; color a bright scarlet, with a soft, velvety finish; strong, healthy constitution, standing the sun well.

S. A. Nutt. A dark red Geranium. Considered to be one of the best bedders and is more generally used than any other Geranium both as a pot plant and a bedder; a vigorous, compact grower, with clean, healthy constitution.

Scarlet Bedder. A rather dwarf, compact grower; medium size, deep-zoned foliage; free flowering, fair size trusses of perfectly formed semi-double flowers; dark, fiery red color, not as dark as S. A. Nutt; magnificent as a pot plant, as well as a bedder.

SINGLE VARIETIES

\$2.50 per 100, \$22.50 per 1000, unless otherwise priced.

Admiration. A strong, robust grower, with bright rose-shrimp-pink flowers, shading to white center; a profuse bloomer; enormous trusses of beautifully-formed flowers.

Alice of Vincennes. (Hill 1901.) A very distinct and pleasing combination of color; white ground with charming gradation of shades, from white throat through a beautiful shade of violet crimson to an intense scarlet margin.

Antithese. Large, round flowers of a vermilion scarlet color with a large spot on upper petals; grand contrast of colors; very floriferous; robust, compact grower.

Ardens. (Bruant 1906.) Excellent, large flowers and trusses of a beautiful and attractive shade of vermilion scarlet, with distinct white throat; fine habit of growth.

Charles Guerin. (Lem. 1910.) Round flowers of a salmon-carmine color, white eye, enormous trusses; flowers are perfectly formed; a most profuse bloomer.

Claire Albane. (Brt. 1906.) Large flowers of pure white; strong constitution, enabling it to withstand Summer sun extremely well. An excellent variety.

Clifton. A handsome, dark, velvety, deep scarlet with maroon shading; vigorous, compact grower; well-formed flowers, produced in numerous clusters; clean, healthy constitution and stands all weather perfectly.

Commandant Ott. (Roz. 1906.) An extremely handsome variety, having perfect flowers of a beautiful shade of aniline-red, with large white center; fine habit of growth; large trusses.

Count Zeppelin. An excellent bedding variety; most attractive and beautiful shade of light vermilion; dwarf, compact grower; shade and habit of growth all that can be desired in an ideal pot plant; a decided acquisition to any collection.

Emmanuel Arene. Immense trusses, well formed flowers, of a deep, rich, dark, velvety crimson, maculated orange red.

Eugene Sue. (Lem. 1905.) A very attractive and brilliant shade of russet orange; immense foliage of fine texture; floriferous effect of this variety is incomparable; semi-dwarf; robust and branching habit.

Feuer. A German variety which was very highly recommended when it came into our possession and it has not disappointed us, being a continual yielder of a brilliant crimson-red flower; dwarf, compact habit of growth.

Mme. Recamier—See page 11

GERANIUMS—Continued

Gabriel Montoya. (Lem. 1906.) A strong, robust grower of most exquisite reddish-purple flowers; a distinct and attractive shade; continual bloomer; very large trusses.

Granville. An excellent bedding variety; most attractive shade of deep rose pink, with white blotches on upper petals; desirable, strong, compact and beautiful habit, standing the sun extremely well.

Jean Fabon. Robust and free-flowering; enormous trusses, held well above the foliage; grand, round flowers, blood red color, small, white eye; good, strong grower; clean, healthy constitution.

Jacquerie. A most beautiful shade of deep, carmine red; immense trusses on exceptionally long stems; very vigorous grower and unsurpassed as a bedder.

Juste Oliver. (Lem. 1905.) A peculiar and pleasing shade of carmine purple, upper petals shaded fiery red; a unique and beautiful color for bedding and massing.

Konigin Olga Wurtemberg. An old favorite of the Germans; dwarf grower; exquisite shade of deep rose, white at base of petals; a profuse bloomer, flowers being produced at every joint; unsurpassed as a pot plant.

L'Aube. (Br. 1895.) Excellent trusses and flowers of pure snow white, one of the best single whites of this class, retaining its purity the entire season; beautiful and attractive foliage.

Lord Curzon. An exquisite shade of old carmine red, shaded fiery red at base of petals; immense trusses of large, individual flowers all the season; an excellent pot plant.

Marguerite de Layre. (Br. 1889.) Continual bloomer; pure white flowers; attractive, pleasing variety; enormous trusses, freely produced on long, rigid stems.

Maxime Kovalevski. (Lem. 1906.) Fine, vigorous grower; handsome foliage; beautiful orange shade of Lincoln red, a very distinct and striking color when massed; a great acquisition to bedding class.

Ornella—See page 12

Rival—See page 14

Mlle. Anastasie Lacadre. (Br. 1906.) Immense trusses and flowers of rich, crimson carmine, shading through a maculated effect to a pure white center; handsome, deep green foliage of fine substance; unsurpassed as a bedder.

Mme. Mosnay. (Br. 1906.) Perfectly formed flowers of a magnificent shade of Geranium red, upper petals shaded violet to a white center; flowers produced in enormous trusses on long, rigid stems; handsome deep green foliage; unsurpassed as a bedder.

Mrs. E. G. Hill. (Br. 1901.) An exquisite shade of soft, light salmon, each petal bordered with rose salmon; continual bloomer; excellent bedding variety; semi-dwarf grower; will resist the heat of the sun.

Mrs. E. Rawson. Extraordinarily strong and vigorous grower of immense semi-dwarf bright scarlet flowers, with crimson shading on upper petals; capable of withstanding the extreme Summer heat; excellent for bedding.

Pamela. (Cannell, 1906.) This is a variety that is universally admired; immense rounds of flowers with a pure white center, shading through a maculated effect to a broad, distinct, outer margin of crimson lake; an exceptionally strong, vigorous grower for an English round flower sort.

Paul Crampel. Attractive shade vermilion scarlet; deep, rich green, distinctly zoned foliage; strong, compact, vigorous and branching habit; one of the brightest bedding varieties we have.

Princess Alex. Large and perfect flowers of a most pleasing shade of bright carmine lake, produced freely in grand trusses; an exceptionally fine pot variety.

GERANIUMS—Continued

Mrs. Banks—See page 15

Rival. A result of a cross between the zonal and Ivy-leaved type, retaining more of the nature of the zonal and possessing many of the good points of both parents. Splendid as a pot plant and under favorable conditions is an excellent bedder. Color a unique soft shade of salmon-red, upper petals beautifully blotched.

Rosalda. (Brt. 1906.) Extremely handsome flower of a rich crimson pink, upper petals heavily blotched; white and pencilled carmine; a true representative of the Bruant race.

Snowdrop. Strong, compact grower; splendid bedding variety, having enormous trusses of pure white flowers held well above the foliage. A variety that will not fade.

Sycamore. (Halsted 1906.) An attractive, bright clear shade of salmon pink; profuse bloomer; very large flowers produced in enormous trusses, on long, rigid stems; strong, vigorous grower of good habit.

Theodor de Wyzewa. (Lem. 1906.) Cheerful, clear shade of rich lilac rose, with blotch on upper petals; strong branching, semi-dwarf grower of beautiful flowers, and trusses abundantly produced.

Telegraph. (De Voy 1904.) Mammoth dark green, slightly zoned foliage; strong, robust grower, having an iron-clad constitution and stands the weather with perfect immunity; enormous flowers and trusses of a beautiful Lincoln red.

The Sidar. Magnificent round flowers of an exquisite shade of intense scarlet; large trusses, produced on long, rigid stems, making a very attractive variety.

Tiffin. (Ulrich 1906.) One of the freest blooming single bedding varieties; flowers of a very effective shade of rich, glowing scarlet, crimson shadings on upper petals.

Victor Grosset. (Brt. 1906.) Continual bloomer; excellent trusses and flowers of a bright rich shade of apricot salmon, bordering on vermilion-scarlet; splendid bedder, excellent habit; strong, healthy constitution.

IVY-LEAVED GERANIUMS

\$2.50 per 100, \$22.50 per 1000, unless otherwise priced.

Alpha. (Roz.-Bou. 1912.) The foliage is finely denticulated. The center of the leaf is greenish maize, with a broad, dark zone, edged golden yellow; free-flowering, of a rich shade of scarlet red. A single medium size, abundantly produced in fair-sized trusses.

Achievement. Distinct and pleasing shade of soft cerise pink; immense, semi-double flowers, freely produced in large trusses; capable of withstanding inclement weather because of hardness and strength, the result of a cross with a zonal.

Alliance. A French hybrid between a zonal and Ivy. Its color is a most exquisite shade of delicate lilac white, upper petals feathered and blotched bright crimson rose; flowers semi-double, abundantly produced in fine, large trusses; foliage beautiful, clean and of splendid leathery texture; habit excellent, robust, strong, close-jointed.

Ballade. (Lemoine 1905.) Large, semi-double flowers and splendid trusses; color tender lilac, upper petals feathered with crimson maroon; a strong, dwarf, steady grower, of splendid habit; a fine pot plant.

Bettina. (1905.) Superior, semi-double flowers and trusses of a magnificent shade of tender lilac white, center of petals and flowers being blotched with Tyrian rose; remarkably beautiful as a pot plant; dwarf, compact habit.

Caesar Franck. One of the most popular Ivy Geraniums yet introduced; the color is an attractive shade of soft, rich crimson, with an exquisite shading of tender rose at the base of petals; habit vigorous, quick growing and pleasing; strong constitution.

Colonel Baden Powell. Flowers of enormous size, one of the largest among the Ivies, abundantly produced in good-sized trusses; semi-double of elegant showy form; color varies at times from pearl white to soft blush.

Gorden's Glory. Flowers of good quality and large size; pleasing and attractive for fancy baskets or vases; a profuse bearer of a beautiful, bright scarlet flower, which is considered to be one of the best of the type.

Countess de Grey. Profuse bloomer; large, well-formed flowers; a pleasing, light satiny salmon color; foliage and petals of fine, durable substance; strong, healthy, erect growth; luxuriant, glossy green foliage.

Dina Scalarandis. Beautiful, double, white flowers with a slight tinge of lilac on edge of petals; profuse bloomer; excellent trusses; dwarf, compact grower.

Hector Gaicomelle. An exquisite shade of lavender white, effectively tinted pale rose, upper petals distinctly feathered crimson maroon, lower petals touched with same color; large, semi-double flowers, splendid habit of growth, and when well grown, leaves nothing to be desired in the way of an Ivy Geranium.

Incomparable. Very large trusses; florets immense and regular in form; a beautiful variety; exquisite shade of rosy carmine; dwarf, bold, compact, robust grower.

James Attfield. A hybrid; extra large, double flowers of a pretty tint of soft pink, short jointed in growth; very free.

GERANIUMS—Continued

Pierre Crozy

James T. Hamilton. A hybrid; intense carmine crimson; long, stout stems; good for bedding or pot work.

Joseph Warren. A distinct and striking variety; large, bold, semi-double flowers of good substance; lovely, rich, purple rose color, slightly feathered dark maroon.

Mme. Thibaut. Magnificent shade of clear rose pink, upper petals delicately but distinctly feathered deep crimson maroon; immense trusses; undulated petals; strong, vigorous habit; luxuriant, waxy foliage.

Mrs. Banks. Flowers are large, semi-double and borne in medium-sized trusses on long, wiry stems; color a pleasing shade of blush white, upper petals feathered reddish Neyron. In habit of growth it is truly an Ivy; exceptionally strong and vigorous, flowering abundantly through the Winter; handsome, light green foliage.

Mrs. Hawley. Pleasing shade of rose-cerise, slight magenta shading, dark blotch on upper petals; large, semi-double flowers; strong, robust grower; splendid habit.

Pierre Crozy. Profuse bloomer; large, semi-double, bright scarlet flowers, handsome and delicate finish; open trusses; possesses all the good qualities which make up an ideal pot plant; low growing bedder; very heavy in texture, while forms of truss and florets are found only among the Ivies.

Rycroft's Surprise. Semi-dwarf, short jointed and branching habit of growth. One of the best and most beautiful Ivy Geraniums we have. In color it is a charming clear rose—a rich pink which is very attractive. Combining all these qualities, it makes an ideal Ivy Geranium.

Scarlet Crousse. A magnificent shade of cardinal red; fine, full flowering, large trusses; splendid, free, bold habit; deep green foliage of fine substance; very effective.

Souv. de Chas. Turner. Deep pink, feathered maroon on upper petals; individual florets 2½ to 3 inches across.
